

# **SANITATION NOTICE**

**WITH CORONA VIRUS MAKING US CHANGE OUR WAYS, SOME CHALLENGES HAVE ARISEN REGARDING SANITATION, WHICH STRATA COUNCIL WOULD ASK ALL RESIDENTS TO CONSIDER.**

- 1. Please do not dump garbage on the common property. The rules regarding garbage disposal have not changed, and are more important than ever considering what the garbage may contain these days. There is no excuse for not disposing of your garbage properly.**
- 2. Please use proper disposal bins, and ensure all garbage is sealed inside a bag before disposing of it. Several garbage companies have advised that they will not pick up garbage in which exposed tissues, paper towels, etc. can be seen. To ensure the garbage can be picked up, please follow this request.**
- 3. There has been a huge increase in the number of disinfecting wipes being used since Covid-19 began. These CANNOT be flushed down toilets. They can clog up the sewer system at various points in the process, starting at the strata complex and all the way to the waste processing stations. DO NOT FLUSH WIPES OR ANYTHING ELSE THAT ISN'T MEANT TO GO DOWN A TOILET.**
